Partial | High risk | Breach Notification Sla

Breach Notification SLAs

The clause in seg_032 satisfies notification, discovery trigger, and a six-hour deadline, meeting three mandatory requirements and includes the word 'immediately' as an optional strengthener. No provision addresses post-notice cooperation, so that mandatory element is missing. No downgrade language or contradictory terms are present.

61% Confidence | 4 Found | 1 Missing | 1 Evidence | 1 Clauses

Recommended fix	Add or strengthen language covering: vendor cooperation or support after notice.
Regulatory relevance	Relevant for bank oversight, vendor risk, and regulatory defensibility.
